Art Unit: 1644

A sua sponte examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

At page 1, between lines 3 and 4, entered the following new paragraph:

— — This application is a division of U.S. application Serial No. 08/811,463, filed March 3, 1997 and now U.S. Patent No. 6,277,375. — —

Applicant filed a preliminary amendment with the instant application to enter continuation data. That amendment was never entered in the record. The present amendment enters continuation data and indicates the current status of the parent application.

The following is an examiner's statement of reasons for allowance:

Closest prior art of record is considered to be 1) Kim et al, Eur. J. Imm., 24, 542, 1994; 2) Kim et al, Scan. J. Imm., 40, 457, 1994; and 3) Kim et al, Eur. J. Imm. 24, 2429, 1994. Refs. 1) and 2) state nothing about the FcRn receptor; and they do not show, or specifically suggest, mutant forms with increased in vivo half life. Ref. 3) teaches the role of the FcRn in transcytosis, but indicates (pg. 2434) that the receptor involved in IgG catabolism has yet to be identified; also the reference teaches no mutant forms having increased in vivo half life.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
